

SPECIALISTS- Grade One

Term 1 Outline 2021

ITALIAN ART IMMERSION

As part of the Art Italian immersion experience in Term 1 Mr Torcasio and Mrs Giramondo will be working with students to build both their Artistic skills and Italian language skills. This will be done through a variety of purposefully planned art projects that provides all students with the opportunity to immerse themselves into the Italian culture. They will be able to participate in the following activities: Pinocchio: learning the story, using colour with a focus on pencil control, colouring inside the lines and filling spaces. Name art: focus on colour, space, creating a name art work and mi chiamo. Chinese New Year: creating an ox with a focus on pencil control, cut and paste skills and composition. Mixed Media Portraits: creating a portrait using a range of materials and skills with a focus on la faccia, occhi, naso bocca.

PHYSICAL EDUCATION

P.E. at CPS is a stimulating and comprehensive program. Miss Atkins and Mrs Wilson will be guiding students with the development of their gross motor and sports skills through a variety of learning experiences. The Physical Education class expectations, organisation and behaviour are strongly reinforced to create a fair, inclusive and supportive environment for all children to enjoy and participate. Students will learn the importance of stopping on the whistle, following instructions and working with partners and in groups. Term One focusses on the Fundamental Motor Skills of: Catch, Run and Two hand strike. These skills will be developed and practised through rotational groups where children are encouraged to work with partners and groups. To reinforce these skills, we will be playing Minor Games of Captain Mouse, Copy Cat, Simpsons Tag and Musical Freeze.

PERFORMING ARTS

Performing Arts is a dynamic and diverse program offered at CPS. Miss Smith has created some exciting learning opportunities for students this Term. Throughout Term 1 students in Performing Arts will participate in the following lessons: Studying "Peter and the Wolf"- learning the story, characters, instruments and instrument families that match each character. Learning how to play "Mary Had a Little Lamb" and "Twinkle, Twinkle Little Star" on the Glockenspiel. Learning the lyrics and actions to popular children's songs.

STEM

STEM is an innovative and creative program at CPS. Throughout Term One students will be learning and practicing some basic skills of folding bending, twisting and tearing. STEM at CPS includes the investigation and development of real world scenarios. Being project based STEM will be looking at design, creation and testing of products. Mrs Pongrac has developed some projects for students to complete such as puppets with moving parts.
